

SEED CATALOG 2017

The logo for axis seed features the word "axis" in a bold, white, lowercase sans-serif font. A small green leaf icon is positioned above the letter "i". To the right of "axis" is a small "TM" trademark symbol. Below "axis" is the word "seed" in a white, lowercase, italicized serif font.

OUR PROMISE

COMMITTED TO HELP YOU GROW.

Axis Seed™ is the fastest-growing independent seed company in the U.S. because of our unique business model. Through our locally owned Independent Regional Companies (IRCs), you have access to the latest traits and technologies. Your IRC won't waste your time with unnecessary buzzwords or orders from corporate. What you can expect is a dedicated partnership where you receive personalized, premium products that are designed to perform in your specific soil—because helping you succeed is the only way we do.

Working with Axis is unlike your relationship with any other company, and it won't take long to see why.

WRIGHT SEED, LLC

Looking back on my years as an independent company, I am extremely pleased with my selection of hybrids. By bringing common sense back to the seed industry, I am confident you will be excited about the results on your farm. This confidence comes from the selection of workhorse hybrids chosen specifically for Southwest Iowa and Northwest Missouri!

I look forward to working with you and meeting all of your seed needs this season and for years to come.

— Robert Wright, *Owner*

Our family is very important to our business by all of us pitching in from time to time. We could never run a successful business without our family, just like we couldn't do it without our family of loyal customers. We would like to ***thank you*** all for your past and future business, and look forward to working with you to make your operation more profitable, by matching up the "Wright" hybrids for your acres.

Thank you all, again!

The Wright Family

CORN BRANDS

Your soil is unique. Get more from it with select hybrids.

Corn Traits

VT2PRIB		VT Double PRO® RIB Complete® Corn Blend
GTCBLL		Agrisure® GT/CB/LL
DGVT2PRIB		DroughtGard® Hybrids with VT Double PRO® RIB Complete® Corn Blend

58R28 VT2PRIB 107-109 Day Maturity

- Attractive late season plant integrity
- Moves south as an early hybrid
- Good tolerance to greensnap
- Maintains deep kernels across environments

VTDoublePRO
RIB COMPLETE

60K23 VT2PRIB 109-111 Day Maturity

NEW!

- Very strong yield potential
- Very good ability to move north to south for RM
- Wide adaptability for planting populations with good ear flex
- Very good yield response to irrigation

VTDoublePRO
RIB COMPLETE

Versions: 60K53 GENSSRIB

60R20 VT2PRIB 109-111 Day Maturity

NEW!

- Widely adaptable across many soil types
- Large, girthy ear
- Excellent greensnap tolerance
- Excellent roots and very good stalks

VTDoublePRO
RIB COMPLETE

Versions: 60R06 CONV, 60R50 GENSSRIB

61M33 GTCBLL 110-112 Day Maturity

- Consistent high yield performance
- Good movement north and south for maturity
- Produces deep kernels on semi-flex ears
- Very good late season standability

Agrisure LIBERTY
GT/CB/LL LINK

* Local observations from Wright Seed.

61T21 VT2PRIB*110-112 Day Maturity*

- Consistent yield performance
- Medium stature with excellent stalks and roots
- Exhibits good late season intactness and appearance
- Very good southern movement

VTDoublePRO
RIB COMPLETE

Versions: 61T51 GENSSRIB

62K25 VT2PRIB*111-113 Day Maturity*

- Responds to high management and high populations
- Very good stalks and good roots
- Excellent stress tolerance
- Good disease package for corn on corn

VTDoublePRO
RIB COMPLETE

Versions: 62K35 VT3PRIB

62N35 VT2PRIB*111-113 Day Maturity*

- Widely adapted across many environments
- Very high yield potential
- Very good test weight
- Excellent Goss' Wilt tolerance

VTDoublePRO
RIB COMPLETE

Versions: 62C30 CONV, 62N36 VT3PRIB

63R22 VT2PRIB*112-114 Day Maturity*

- Widely adapted east to west with good southern movement
- Medium stature, impressive ear length and flex
- Produces deep kernels, good husk coverage
- Exceptional disease package including Goss' Wilt and GLS tolerance

VTDoublePRO
RIB COMPLETE

63W29 VT2PRIB 112-114 Day Maturity

- Outstanding yield potential
- Very good late season appearance
- Big, girthy ear
- Good disease package

| F | AVG | G | VG | E |

* Local observations from Wright Seed.

Versions: 62G22 VT3PRIB

64D25 DGVT2PRIB 113-115 Day Maturity

- DroughtGard® Hybrid
- Does not need high plant populations to yield
- Excellent greensnap tolerance and very good Goss' Wilt tolerance
- Tall, high eared hybrid

| F | AVG | G | VG | E |

64R50 VT2PRIB 113-115 Day Maturity

- High yield potential
- Nice fall intactness
- Excellent test weight
- Excellent grain quality

| F | AVG | G | VG | E |

Versions: 64R05 CONV

64T22 VT2PRIB 113-115 Day Maturity

- Shorter statured hybrid that canopies quickly
- Very good stalk and excellent root ratings
- Excellent early seedling vigor for no-till soils and early planting
- Consistent yields and plant stature under stress conditions

| F | AVG | G | VG | E |

Versions: 64T02 CONV

SOYBEAN BRANDS

The truth is, there's no "average acre."
So why choose an average bean variety?

Soybean Traits

RR2X		Roundup Ready 2 Xtend® Soybeans
RR2Y		Genuity® Roundup Ready 2 Yield® Soybeans
LL		LibertyLink® Soybeans

2416NR

RR2Y

2.4 Relative Maturity

- Widely adapted soybean
- Excellent yield potential
- Very good emergence and standability

2825NR RR2Y

- Consistent high yield performance
- Very attractive light tawny plant
- Very good disease package

2.8 Relative Maturity

3114NR RR2Y

- Medium-tall plant with very good standability
- Very good emergence and stress tolerance
- Dominate yields over past three years

3.1 Relative Maturity

3411NR RR2Y

- Very good SDS tolerance
- Nice "touchdown branches" on an upright, intermediate plant
- BSR resistant

3.4 Relative Maturity

3813NR RR2Y

- STS resistant
- Very good SDS tolerance
- Very good/excellent Green Stem rating
- Impressive, rugged plant type

3.8 Relative Maturity

LIBERTYLINK® PATENT STATEMENT

Seeds containing the LibertyLink® trait are protected under multiple U.S. patents and may be planted only to produce one (1) commercial crop, and only after signing a Bayer Grower Technology Agreement. It is illegal to save or catch seeds containing the LibertyLink trait for use as planting seed or for transfer to others for use as planting seed.

SOYBEAN PIRACY STATEMENT

Seeds containing the Genuity® Roundup Ready 2 Yield® or the Roundup Ready 2 Xtend® traits can only be used to plant a single commercial crop. It is unlawful to save and replant Genuity® Roundup Ready 2 Yield® or Roundup Ready 2 Xtend® soybeans. Additional information and limitations on the use of these products are provided in the Monsanto Technology Stewardship Agreement, the Monsanto Technology Use Guide, and 2016 Technology Use Guide Addendum to include Roundup Ready 2 Xtend® Soybeans. U.S. patents for Monsanto technologies can be found at the following webpage: <http://www.monsantotechnology.com>.

BENEFITS OF NEW SEED: High Value of New Branded Seed

Latest Technology

- Highest yielding soybean technology available
- Six soybean trait products anticipated to come from Monsanto in the next 2-7 years*
- Leading seed treatment options

Customer Service

- Dealer agronomic support before and after the sale
- Replant policy support
- Convenient packaging and delivery

Reliable Germination and Quality

- Rigorously tested for quality and meets US Federal Seed Act requirements
- Free of seed-borne diseases
- Properly stored and conditioned

*Pending regulatory approvals.

Lined writing area with 24 horizontal lines.

Before opening a bag of seed, be sure to read, understand and accept the stewardship requirements, including applicable refuge requirements for insect resistance management, for the biotechnology traits expressed in the seed as set forth in the technology agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation to comply with the most recent stewardship requirements.

As of this printing no dicamba herbicide product has been approved for commercial in-crop use with Roundup Ready 2 Xtend® soybeans. DO NOT APPLY DICAMBA HERBICIDE IN-CROP TO Roundup Ready 2 Xtend® Soybeans in 2016 unless you use a dicamba herbicide product that is specifically labeled for that use in the location where you intend to make the application. While no in-crop use of dicamba is currently approved, some dicamba products may be labeled for weed control prior to planting a crop and subject to minimum plant back restrictions. IT IS A VIOLATION OF FEDERAL AND STATE LAW TO MAKE AN IN-CROP APPLICATION OF ANY DICAMBA HERBICIDE PRODUCT ON Roundup Ready 2 Xtend® Soybeans, OR ANY OTHER PESTICIDE APPLICATION, UNLESS THE PRODUCT LABELING SPECIFICALLY AUTHORIZES THE USE. Contact the U.S. EPA and your state pesticide regulatory agency with any questions about the approval status of dicamba herbicide products for in-crop use with Roundup Ready 2 Xtend® Soybeans and follow all pesticide product labeling.

Monsanto Company is a member of Excellence Through Stewardship® (ETS). Monsanto products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Monsanto's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. This product has been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product.

B.t. products may not yet be registered in all states. Check with your Monsanto representative for the registration status in your state.

IMPORTANT IRM INFORMATION: Genuity® RIB Complete® corn blend products do not require the planting of a structured refuge except in the Cotton-Growing Area where corn earworm is a significant pest. Always read and follow IRM requirements.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. Roundup Ready 2 Xtend Soybeans contains genes that confer tolerance to glyphosate and dicamba. Glyphosate herbicides will kill crops that are not tolerant to glyphosate. Dicamba will kill crops that are not tolerant to dicamba. Contact your Monsanto dealer or refer to Monsanto's Technology Use Guide for recommended Roundup Ready® Xtend Crop System weed control programs.

Acceleron and Design®, DroughtGard®, Genuity Design®, Genuity Icons, Roundup®, Roundup Ready 2 Yield®, Roundup Ready®, Roundup Ready 2 Technology and Design®, Roundup Ready 2 Xtend®, RIB Complete and Design®, RIB Complete®, SmartStax and Design®, SmartStax®, SR Design™, VT Double PRO® and VT Triple PRO® are trademarks of Monsanto Technology LLC. LibertyLink and the Water Droplet Design® is a registered trademark of Bayer. Herculex® is a registered trademark of Dow AgroSciences LLC. Respect the Refuge and Corn Design® and Respect the Refuge® are registered trademarks of National Corn Growers Association. All other trademarks are the property of their respective owners.

Individual results may vary, and performance may vary from location to location and from year to year. This result may not be an indicator of results you may obtain as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible.

Agrisure®, Agrisure Artesian®, Artesian™, Agrisure Duracade®, Agrisure Viptera® and E-Z Refuge® are trademarks of a Syngenta Group Company.

© 2016 Bayer CropScience LP, 2 T.W. Alexander Drive, Research Triangle Park, NC 27709. Always read and follow label instructions. Bayer (reg'd), the Bayer Cross (reg'd), IlEVO®, Liberty®, LibertyLink®, Poncho®, VOTIVO®, and the Water Droplet Design (reg'd) are trademarks of Bayer. Not all products are registered for use in all states. For additional product information call toll-free 1-866-99-BAYER (1-866-992-2937) or visit our website at www.BayerCropScience.us.

Respect the Rotation™ is an initiative to elevate the importance and grower adoption of herbicide diversity to prevent or manage weed resistance. Glyphosate weed resistance is a dominating threat throughout the United States that affects land values, rental agreements, conservation tillage and can greatly reduce yields. The use of Integrated Weed Management practices, such as use of residuals, preemergence herbicides and rotation of crops, traits and herbicides, is critical as no one method is likely to be completely successful.
