## OUR PROMISE

# FAMILY-TO-FAMILY FARMING

*Axis Seed™ is the fastest-growing independent seed company in the U.S. because of our unique business model. Through local, family-owned Independent Regional Companies (IRCs), you have access to the latest genetics, traits, and technologies, backed by people who genuinely care about your success. What you can expect is a dedicated partnership where you receive premium products selected for your specific soil and profit goals. Because even as the industry evolves with new technologies, success will always come from the relationship—and our family wants to see your family succeed.*

*Working with Axis is unlike your relationship with any other company, and it won't take long to see why.*

*Grow Strong™*

## WRIGHT SEED, LLC

Looking back on my years as an independent company, I am extremely pleased with my selection of hybrids. By bringing common sense back to the seed industry, I am confident you will be excited about the results on your farm. This confidence comes from the selection of workhorse hybrids chosen specifically for Southwest Iowa and Northwest Missouri!

I look forward to working with you and meeting all of your seed needs this season and for years to come.

— Robert Wright, *Owner*

Our family is very important to our business by all of us pitching in from time to time. We could never run a successful business without our family, just like we couldn't do it without our family of loyal customers. We would like to **thank you** all for your past and future business, and look forward to working with you to make your operation more profitable, by matching up the "Wright" hybrids for your acres.

Thank you all, again!

The Wright Family

## CORN BRANDS

Your soil is unique.  
Get more from it  
with select hybrids.

### Corn Traits

NEW!

## 57A25 VT2PRIB 106-108 Day Maturity

- Dominant yield performance
- Scores high for late-season stay green and intactness
- Consistent ear development with very deep kernels
- Widely adapted east to west in zone

## 60K23 VT2PRIB 109-111 Day Maturity

- Very strong yield potential
- Very good ability to move north to south for RM
- Wide adaptability for planting populations, good ear flex
- Very good yield response to irrigation

## 61K31 VT3PRIB 110-112 Day Maturity

- Consistent ears with very good test weight
- Very good Goss' Wilt tolerance
- Low greensnap risk
- Good disease package

## 61M33 3010 110-112 Day Maturity

- Consistent high yield performance
- Good movement north and south for maturity
- Produces deep kernels on semi-flex ears
- Very good late-season standability

\* Local observations from Wright Seed.

# 61T21

VT2PRIB

## 110-112 Day Maturity

- Consistent yield performance
- Medium stature with excellent stalks and roots
- Exhibits good late-season intactness and appearance
- Very good southern movement

NEW!

# 62A28

VT2PRIB

## 111-113 Day Maturity

- Very good stalks and roots
- Semi-flex ear with excellent test weight
- Responds to higher management
- Very good early plant vigor

# 62N35

VT2PRIB

## 111-113 Day Maturity

- Widely adapted across many environments
- Very high yield potential
- Very good test weight
- Excellent Goss' Wilt tolerance

# 63Q24

3010

## 112-114 Day Maturity

- Exhibits stability under stress conditions
- Medium stature with strong agronomics
- Very good ear flex
- Flowers early for maturity with average dry down

\* Local observations from Wright Seed.

## 63R22 VT2PRIB 112-114 Day Maturity

- Medium stature with impressive ear length and flex
- Produces deep kernels with very good husk coverage
- Exceptional disease package including Goss' Wilt and GLS tolerance

**VTDoublePRO**  
RIB COMPLETE

## 64R50 VT2PRIB 113-115 Day Maturity

- High yield potential
- Nice fall intactness
- Excellent test weight
- Excellent grain quality

**VTDoublePRO**  
RIB COMPLETE

NEW!

## 64V29 VT2PRIB 113-115 Day Maturity

- Medium-statured hybrid that moves well into stress areas
- Works well east to west
- Excellent seedling vigor
- Very good test weight

**VTDoublePRO**  
RIB COMPLETE

\* Local observations from Wright Seed.

NEW!

## 65H25 VT2PRIB 114-116 Day Maturity

- High yield potential over a broad range of environments
- Very good stalks and drought tolerance
- Excellent grain quality
- Excellent test weight

**VTDoublePRO**  
RIB COMPLETE

## SOYBEAN BRANDS

The truth is, there's no "average acre." So why choose an average bean variety?

### Soybean Traits

RR2X		Roundup Ready 2 Xtend® Soybeans
RR2Y		Genuity® Roundup Ready 2 Yield® Soybeans
LL		LibertyLink® Soybeans

## 2416NR RR2Y

### 2.4 Relative Maturity

- Widely adapted soybean
- Excellent yield potential
- Very good emergence and standability

## 2428NRX RR2X

### 2.4 Relative Maturity

- Excellent stress tolerance
- Very good Emergence
- Brown Stem Rot resistance

## 2818NRX RR2X

### 2.8 Relative Maturity

- Great plant style and standability lend itself to broad acres
- Excellent SDS tolerance
- Very good emergence and stress tolerance

## 3014NR RR2Y

### 3.0 Relative Maturity

- Great IDC score
- Sharp looking light tawny soybean
- Compact bush

## 3218NRX RR2X

- Great plant height and good standability
- Very good emergence and stress tolerance
- SCN + Rps 1c + Good IDC

### 3.2 Relative Maturity

## 3411NR RR2Y

- Very good SDS tolerance
- Nice "touchdown branches" on an upright, intermediate plant
- BSR resistant

### 3.4 Relative Maturity

## 3618NRX RR2X

- Medium-tall plant with great standability
- Very good emergence
- Very good stress tolerance

### 3.6 Relative Maturity

Before opening a bag of seed, be sure to read, understand and accept the stewardship requirements, **including applicable refuge requirements for insect resistance management**, for the biotechnology traits expressed in the seed as set forth in the technology agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation to comply with the most recent stewardship requirements.

**Monsanto Company is a member of Excellence Through Stewardship® (ETS).** Monsanto products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Monsanto's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. Certain products have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Growers should refer to <http://www.biotraderstatus.com/> for any updated information on import country approvals. Excellence Through Stewardship® is a registered trademark of Biotechnology Industry Organization.

B.t. products may not yet be registered in all states. Check with your Monsanto representative for the registration status in your state.

**IMPORTANT IRM INFORMATION:** RIB Complete® corn blend products do not require the planting of a structured refuge except in the Cotton-Growing Area where corn earworm is a significant pest. SmartStax® RIB Complete® corn blend is not allowed to be sold for planting in the Cotton-Growing Area. See the IRM/Grower Guide for additional information. Always read and follow IRM requirements.

DroughtGard® Hybrids with RIB Complete® corn blend the refuge seed may not always contain DroughtGard® Hybrids trait.

**ALWAYS READ AND FOLLOW DIRECTIONS FOR USE ON PESTICIDE LABELING.** IT IS A VIOLATION OF FEDERAL AND STATE LAW to use any pesticide product other than in accordance with its labeling. NOT ALL formulations of dicamba or glyphosate are approved for in-crop use with Roundup Ready 2 Xtend® soybeans. ONLY USE FORMULATIONS THAT ARE SPECIFICALLY LABELED FOR SUCH USES AND APPROVED FOR SUCH USE IN THE STATE OF APPLICATION. XTENDIMAX™ HERBICIDE WITH VAPORGRIP™ TECHNOLOGY AND IN CROP USES MAY NOT BE APPROVED IN ALL STATES. Contact the U.S. EPA and your state pesticide regulatory agency with any questions about the approval status of dicamba herbicide products for in-crop use with Roundup Ready 2 Xtend® soybeans. Roundup Ready 2 Xtend® soybeans contains genes that confer tolerance to glyphosate and dicamba. Glyphosate will kill crops that are not tolerant to glyphosate. Dicamba will kill crops that are not tolerant to dicamba. Contact your Monsanto dealer or refer to Monsanto's Technology Use Guide for recommended weed control programs.

Acceleron®, DroughtGard®, Genuity®, RIB Complete and Design®, RIB Complete®, Roundup Ready PLUS®, Roundup Ready 2 Technology and Design®, Roundup Ready 2 Xtend®, Roundup Ready 2 Yield®, Roundup Ready®, Roundup®, SmartStax and Design®, SmartStax®, SR Design®, VT Double PRO® and VT Triple PRO® VaporGrip®, and XtendiMax® are trademarks of Monsanto Technology LLC. LibertyLink and the Water Droplet Design® is a registered trademark of Bayer. Herculex® is a registered trademark of Dow AgroSciences LLC. Respect the Refuge and Corn Design® and Respect the Refuge® are registered trademarks of National Corn Growers Association. All other trademarks are the property of their respective owners.

Individual results may vary, and performance may vary from location to location and from year to year. This result may not be an indicator of results you may obtain as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible.

**Consult bag tags for E-Z Refuge® product herbicide options; only those labeled GT/LL may be sprayed with glufosinate.** Agrisure®, Agrisure Artesian®, Artesian™, Agrisure Duracade®, Agrisure Viptera® and E-Z Refuge® are trademarks of a Syngenta Group Company. Agrisure® Technology incorporated into these seeds is commercialized under license from Syngenta Seeds, Inc. Herculex® Technology incorporated into these seeds is commercialized under license from Dow AgroSciences LLC. HERCULEX® and the HERCULEX Shield are trademarks of Dow AgroSciences LLC.

LibertyLink® Patent Statement: Seeds containing the LibertyLink® trait are protected under multiple U.S. patents and may be planted only to produce one (1) commercial crop, and only after signing a Bayer Grower Technology Agreement. It is illegal to save or catch seeds containing the LibertyLink trait for use as planting seed or for transfer to others for use as planting seed.

© 2017 Bayer CropScience LP, 2 T.W. Alexander Drive, Research Triangle Park, NC 27709. Always read and follow label instructions. Bayer, the Bayer Cross, iLeVO, Liberty, LibertyLink, Poncho, VOTIVO®, and the Water Droplet Design are registered trademarks of Bayer. Not all products are registered for use in all states. For additional product information call toll-free 1-866-99-BAYER (1-866- 992-2937) or visit our website at [www.CropScience.Bayer.us](http://www.CropScience.Bayer.us).

Respect the Rotation® is an initiative to elevate the importance and grower adoption of herbicide diversity to prevent or manage weed resistance. Glyphosate weed resistance is a dominating threat throughout the United States that affects land values, rental agreements, conservation tillage and can greatly reduce yields. The use of Integrated Weed Management practices, such as use of residuals, preemergence herbicides and rotation of crops, traits and herbicides, is critical as no one method is likely to be completely successful.

**SOYBEAN PIRACY STATEMENT:** Seed containing a patented trait can only be used to plant a single commercial crop from which seed cannot be saved and replanted. Examples of seed containing a patented trait include but are not limited to Genuity® Roundup Ready 2 Yield® soybeans, and Roundup Ready 2 Xtend® soybeans. Additional information and limitations on the use of these products are provided in the Monsanto Technology Stewardship Agreement, the Monsanto Technology Use Guide, and 2017 Roundup Ready 2 Xtend® Soybean Technology Use Guide Supplement. U.S. patents for Monsanto technologies can be found at the following webpage: <http://www.monsantotechnology.com>

#### **BENEFITS OF NEW SEED: High Value of New Branded Seed**

##### Latest Technology

- Highest yielding soybean technology available
- Six soybean trait products anticipated to come from Monsanto in the next 2-7 years\*
- Leading seed treatment options

##### Customer Service

- Dealer agronomic support before and after the sale
- Replant policy support
- Convenient packaging and delivery

##### Reliable Germination and Quality

- Rigorously tested for quality and meets US Federal Seed Act requirements
  - Free of seed-borne diseases
  - Properly stored and conditioned
- \*Pending regulatory approvals.
